

Mayor Cammarano:

I am writing this note to inform you that I am resigning from the Mayoral Transition Committees for Economic Development and Community Relations, *effective immediately*. In light of the recent allegations against you I find it impossible for me to continue to invest my time, energy, or hope in working on a committee that is supportive of your administration under these conditions.

When I was asked to become part of the transition team I was hopeful we could move beyond the divisiveness of the campaign and truly work towards your campaign slogan of creating "One Hoboken". Unfortunately, your alleged statements in the criminal complaint indicate otherwise when you say there are actually three categories of Hobokenites... "people who were with us...people who climbed on board in the runoff...and people against us... get ground into powder".

Resigning from the transition committees is bittersweet. I have been thoroughly impressed with the dedication and knowledge of those serving on the transition committees and hope they continue to serve our community.

I truly hope these allegations against you prove to be false and I empathize with the pain and suffering your family and supporters must be feeling.

Sincerely,

Scott Delea
